

WORKSHOP ON ARTIFICIAL INTELLIGENCE

A workshop was conducted on Artificial Intelligence by **JERRYBIT.CO.IN** founded and developed by our Alumni's namely- **Chandra Prakash Bairagi, Sandeep Ghosh and Souvik Paul** on 12th July 2019, for the students of classes XI & XII. They have informed the students about the future prospects of AI and Its Usages. They also demonstrated a few indigenous tools which they had created themselves very similar to google assistant or amazon alexa. The purpose of the workshop was to create awareness about AI among the students.

The three aspects of AI- **Computer Vision , Voice Command & Data Acquisition** was introduced in a very interactive and smooth way.
