Write the answers of the following questions on your computer copy: -

1. \_\_\_\_\_ introduced the term software in 1958.
  - a. John Milton
  - b. John W. Tukey
  - c. Mark Zuckerberg
  - d. Steve Jobs
2. Steve Russel and his team created the first computer game named -
  - a. Space Jam
  - b. Freedom Fighter
  - c. Space War
  - d. Candy Crush
3. This type of software provides essential services like managing memory, handling input and output, ensuring security etc. –
  - a. System Software
  - b. Application Software
  - c. Programming language
  - d. System Monitor
4. Users interact directly with \_\_\_\_\_ software to perform tasks.
  - a. System Software
  - b. Application Software
  - c. Both
  - d. None
5. It serves specific user functions, such as creating documents, editing images, browsing the internet, or playing games etc. What type of software it is?
  - a. System Utility
  - b. Device Driver
  - c. Application Software
  - d. None
6. Utility software, often referred to as \_\_\_\_\_ are designed to perform various maintenance tasks on a computer system, improves performance and work in the background.
  - a. Operating System
  - b. Device Drivers
  - c. Application Program
  - d. System Utilities
7. Some common utility tools are -
  - a. Antivirus, File Management System, Disk Defragmenter, Scan Disk, Backup and Restore
  - b. Windows, Mac OS, Android
  - c. Word, PowerPoint, Notepad
  - d. None
8. \_\_\_\_\_ is a software that helps to keep malicious software away from your computer.
  - a. File Manager
  - b. OS
  - c. Antivirus
  - d. CPU
9. Some common examples of antivirus software are -
  - a. MS Paint, Windows
  - b. Kaspersky, Norton, McAfee, etc.
  - c. Java, Python, PHP
  - d. None
10. It is a software which helps us to manage the files, create, delete, sort, rename, copy or move the files to a different location on your computer system. What is it?
  - a. Antivirus
  - b. Control Panel
  - c. File Management System
  - d. Internet Browser
11. File Explorer for windows and \_\_\_\_\_ for MacOS are popular File Management System.
  - a. Dolphin
  - b. Nautilus
  - c. File Manager
  - d. Finder
12. \_\_\_\_\_ helps to free up disk space by removing unnecessary files, temporary files and cached data.
  - a. SanDisk
  - b. Scandisk
  - c. Disk Back up
  - d. Disk Utility
13. \_\_\_\_\_ utilities enable you to create copies of your important files and system data.
  - a. Backup
  - b. Recovery
  - c. Disk Defragmenter
  - d. None
14. \_\_\_\_\_ utilities help restore your system to a previous state in case of data loss or system failures.
  - a. Backup
  - b. Recovery
  - c. Scandisk
  - d. Antivirus

15. Backing up your files is \_\_\_\_\_ to protect your data from loss.

- a. worthless                      b. costly                      c. essential                      d. none

16. File Backup and Recovery can be done using these steps –

- a. Control Panel → Backup and Restore  
b. Control Panel → Disk Management  
c. Control Panel → Device Management  
d. None of the above

17. It is a utility software tool used to improve the performance and efficiency of a computer's hard disk drive(HDD).

- a. Antivirus                      b. Scan Disk                      c. Disk Defragmentation                      d. Device Management

18. Data written on the hard disk is in clusters. When these clusters become scattered in a process called –

- a. Fragmentation                      b. Defragmentation                      c. Clusters overlap                      d. Sparse data

19. Fragmentation leads slow data access but \_\_\_\_\_ optimises the arrangement of data on the disk and stores data contiguously to lead faster access.

- a. Backup and Recovery                      b. Antivirus                      c. Disk Defragmenter                      d. Scan Disk

20. \_\_\_\_\_ is a disk defragmentation tool and clicking on \_\_\_\_\_ will tell you if you need disk defragmentation.

- a. Disk util and Optimise  
b. Quick Heal and Analyse  
c. Device Manager and System Optimise  
d. Disk Defragmenter and Analyze
