

1)

[$2\frac{1}{2} + 1\frac{1}{2}$]

Draw the above circle (using compass and of any radius) and label a, b, c, d, e.

2) a) Write factors of 15 and 45. [$1 + \frac{1}{2} + 1$]

b) Are there any common factors?
If yes, what are they?

3) Multiply using distributive property:-

$$25 \times 42$$
