

Satish Chandra Memorial School

Class- 10

Sub- Geography

Ch- Resource and Development

1. Critically evaluate the statement “Resources are not free gifts of nature, but products of human interaction with nature.” Support your answer with suitable examples from your surroundings. (2)
2. Compare the causes of land degradation in Jharkhand and Rajasthan. How does the nature of land use in these states contribute differently to degradation? (2)
3. Analyse why some resource-rich regions like Jharkhand remain economically backward, while resource-poor regions like Gujarat are economically developed. Suggest measures to reduce this imbalance. (3)
4. Identify the soil marked in the given map. State any two characteristics of the soil. (1+2)
