

Class – 10

Sub- Geography

Ch- Forest and Wildlife Resources

Full Marks- 10

1. “Forests act as primary producers.” Justify this statement with reference to ecological interdependence. (2)
2. Suppose you are living near a forest that is rapidly being converted into farmland. What two actions would you take as a concerned citizen to promote sustainable development? (2)
3. Analyze how traditional conservation practices (e.g., sacred groves, folk beliefs) can be integrated into modern forest conservation strategies. (3)
4. Evaluate the success of Project Tiger not just in terms of saving tigers but also in preserving entire ecosystems. Give examples to support your argument. (3)
