

Swati has drawn the route from her home to the shopping complex on a scale of $1\text{ cm} = 1\text{ km}$. Her friend Shalu has drawn the route from her house to the shopping complex on a scale of $1\text{ cm} = 2\text{ km}$.

Now, write the distance from:

1. Swati's house to shopping mall
2. Shalu's house to shopping mall
3. Swati's house to Apartment
4. Shalu's house to Apartment
