Multiplying Decimals with Models

Steps:

1. Shade the first number with blue vertically.
2. Shade the second number with green horizontally.
3. Your answer is the overlapping colors.
4. Write your answer in decimal form.

Example #1:

$$0.4 \times 0.7 = 0.28$$

Example #2:

$$0.50 \times 0.30 = 0.15$$
