

- Comprehension Passage

Riya and Tina were two little fairies who lived in a Fairyland. Everything there was easy because they used a magic wand. One day, Riya visited the Earth. She saw children going to school and doing their homework. The children studied, played games and helped their parents at home. Riya felt surprised to see how hard the children worked every day. She realised that working hard helps children learn new things and feel proud of themselves.

- Case study Passage

In my home, just next to my room, is a small balcony. There, in that small area, I have made my own little garden. When we shifted to our new flat about a year ago, I was wondering what to do with that open area. My grandfather suggested that I grow plants in small flower pots. He helped me a lot in arranging the plants and taught me how to take care of them. Now, I have become an expert and manage time to water the plants properly and even trim their leaves. Today, after one year, my rose, marigold, shoe-flower plants have grown tall and healthy. They have made my garden and my life colourful with their red, yellow, pink flowers. My

garden is my favourite place in the house.
