Anti-Bullying Policy

All students are hereby informed that bullying of any kind is strictly prohibited within the school premises. Acts such as teasing, threatening, insulting, or physically hurting others create an unsafe environment and are against school rules.

Students must treat their peers with respect and maintain a friendly and supportive atmosphere in the school. Any student found involved in bullying will face strict disciplinary action.

If any student faces such behaviour or feels unsafe, they are advised to report the matter immediately to the **PHE Department** for support and assistance.

Let us all contribute to making our school a safe and respectful place for everyone.
