

Case Study

Read the passage carefully and choose and write the correct answer :

Water is very important for all living things. We use water for drinking, cooking, bathing, washing clothes, and watering plants. But clean water is limited, so we should not waste it.

Many people leave taps running while brushing their teeth or washing hands. This wastes a lot of water every day. We can save water by turning off taps properly, using a bucket instead of a shower, and reusing water for plants.

Saving water today will help people and animals in the future .

1.Why is water important?

- (a) It is used only for washing clothes
- (b) All living things need it
- (c) It is used only in schools
- (d) It is used only for bathing

2. Which activity wastes water?

- (a) Turning off taps properly.
- (b) Reusing water for plants.
- (c) Leaving taps running while brushing.
- (d) Collecting rainwater.

3.What may happen if we waste water?

- (a) There will always be enough water.
- (b)People and animals may face problems later.
- (c) Rain will stop forever.
- (d) Plants will grow faster.
