

CASE STUDY

In Sadhana Academy, a school of performing arts, the following number of students are learning to sing and play the Tabla.

	Tabla Player	Singers
Boys	78	532
Girls	95	346

Answer the following questions:-

1. Find out the total number of boys.
2. If 15 more girl tabla players and 23 boy tabla players joined, then calculate the total number of tabla players now.
3. If 19 girl singers left the school, then find out the number of singers now.
4. Who are more in number, tabla players or singers?
