

Case Study – 3D Shapes

It was a rainy day. The children could not go outside to play. So, **Saheli** and **Nikhil** stayed at home. Their mother bought some sweets from the sweet shop. She also bought one cold drink bottle, **Kalakand** for Saheli, and a **Laddu** and **Cornetto ice cream** for Nikhil.

Answer the following questions:

1. **Cornetto ice cream** is an example of a _____.
2. How many **corners (vertices)** does a **Kalakand** have?
3. Write an example of a **sphere** from the story.
4. Which **3D shape** is represented by the **cold drink bottle**?
5. Write the names of all the **3D shapes** mentioned in the story.
