

Introduction to Lines

A line is a mark made by moving a pencil from one point to another. We can see different kinds of lines around us.

Types of Lines

1. Standing (Vertical) Line – |
eg : Pole, tree trunk

2. Sleeping (Horizontal) Line – —
eg : Table top, shelf

3. Slanting Line – /
eg : Slide, ladder

4. Curved Line – ∪
eg : Rainbow, snake

Remember: Different types of lines are used to make shapes, letters, numbers, and pictures.
