

LENGTH

Length is a measurement of how long something is, from one end to the other.

Non-Standard Units of Length:

Hand span, cubit, foot span, finger width, or any object like a box, paper clip, etc.

Standard Unit of Measurement:

A measuring unit which is widely used and is common is called a standard unit.

Standard Unit of Length:

1. Centimetre (cm)
2. Metre (m)
3. Kilometre (km)
4. 1 metre = 100 centimetres
5. We use a ruler, measuring tape, etc. to measure length.
