

English case study :

Read the passage carefully and answer the following questions :

Riya saw an ant carrying a grain of rice on its back. The grain was bigger than the ant, but it did not stop. It walked slowly and carefully along the garden path. Other ants followed it, each carrying food. Riya watched them for a while and was amazed at how hard they worked. She did not know ants worked in teams and helped each other. That day, she decided to work hard like the ants and help her mother at home.

1. Why did the ant walk slowly and carefully?

- A. It was tired from walking.**
- B. It was carrying a large grain of rice.**
- C. It was looking for its friends.**
- D. It was afraid of the garden path.**

2. What can we learn from the ants' behaviour ?

- A. Working together can help everyone.**
- B. Food should be kept in the garden.**
- C. It is better to work alone.**
- D. Small tasks are not important.**

3. Riya notices that her mother is busy preparing dinner. What is the best way for Riya to help?

- A. Put away the toys or set the table.**
- B. Wait until her mother asks several times.**
- C. Make the kitchen messier.**
- D. Leave the house without telling her mother.**

4. Why is Riya's decision at the end of the passage important?

- A. She wants to become an ant.**

B. She has learned a lesson and wants to apply it in her life.

C. She wants to stop watching insects.

D. She thinks household work is a game.

5. What might happen if the ants did not collect food when it was available?

A) They might have less food later.

B) They would never feel hungry.

C) Their home would become bigger.

D) Other animals would stop eating.
